

Fund Balance and Financial Reserves Policy

PURPOSE: The City of Moreno Valley is dedicated to maintaining the fiscal stability of the City. It is essential that adequate levels of unrestricted funds be maintained to mitigate financial risk that can occur from unforeseen revenue fluctuations, unanticipated expenditures, and/or other similar circumstances. This policy will provide guidance on establishing and maintaining reasonable levels of reserves in both governmental and proprietary funds. In addition, this policy will improve financial reporting by establishing fund balance classifications that create a hierarchy based on the extent to which the City is bound to observe spending constraints that govern how the City can use amounts reported in the governmental fund balance sheet.

SCOPE: As referencing governmental funds, this policy in conjunction with Resolution 2011-62 (adopted June 14, 2011) satisfies the requirements of Governmental Accounting Standards Board (GASB) Statement No. 54.

DEFINITIONS:

- I. **Calculation Date:** June 30th every year. Reviewed during audit and adjusted prior to closing General Ledger.

 2. **Restricted:** Amounts that are constrained on the use of resources by external creditors, grantors, contributor, or laws or regulations of other governments; or, by law through constitutional provisions or enabling legislature.

POLICY:

I. **Fund Balance Classification in Governmental Funds**

- A. GASB 54 outlines the requirement to report the fund balance for governmental funds in specific classifications, which create a hierarchy primarily based on the extent to which the City is bound to the constraints on the specific purposes for which funds can be spent.
1. The Fund Balance consists of the following five categories:
 - a. Non-spendable
 - b. Restricted
 - c. Committed
 - d. Assigned
 - e. Unassigned
- B. An individual governmental fund could include non-spendable resources and amounts that are restricted, committed, assigned, unassigned, or any combination of those classifications.
- C. Restricted amounts are to be considered spent when expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and committed or assigned.
- D. Unassigned amounts are considered to have been spent when expenditure is incurred for purposes which amounts in any of these unrestricted fund balance classifications can be used.
- E. Commitments may be changed or lifted only by the government taking the same formal action that imposed the constraint originally.
- F. The general fund is the only fund that may report a positive unassigned fund balance.
1. In other funds, the unassigned classification should be used only to report a deficit balance from overspending for specific purposes for which amounts had been restricted, committed, or assigned.
- G. Stabilization Arrangements
1. Per GASB 54, governments have the option to formally set aside unrestricted fund balance amounts to use for budget or revenue stabilization, working capital needs, and contingencies or emergencies.
 - a. The authority to set aside such amounts can be established by statute, ordinance, or resolution.

Fund Balance and Financial Reserves Policy

- b. These amounts are subject to controls that dictate the circumstances under which they can be spent.
- c. The formal action that imposes the parameters for spending should identify and describe the specific circumstances under which a need for stabilization arises.
 - i. Those circumstances should be such that they would not be expected to occur routinely.
- d. Stabilization amounts should be reported in the general fund as restricted or committed if they meet the criteria of restricted or committed fund balance.
- e. A stabilization arrangement would satisfy the criteria to be reported as a separate special revenue fund only if the resources derive from the specific restricted or committed revenue source.

II. Committing Fund Balance

- A. For the City of Moreno Valley, the City Council is the highest level of decision-making authority.
- B. The formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Council at a City Council meeting.
 - 1. The resolution must either be approved or rescinded, as applicable, prior to the last day of the fiscal year for which the commitment is made.
 - 2. The amount subject to the constraint may be determined in the subsequent period.

III. Assigned Fund Balance

- A. The City Council has authorized the City Manager as the official authorized to assign fund balance to a specific purpose as approved by this fund balance policy.
 - 1. Such assignments cannot exceed the available (spendable, unrestricted, uncommitted) fund balance in any particular year.

IV. Reporting Encumbrances

- A. Encumbering amounts in governmental funds for specific purposes for which resources have already been restricted, committed, or assigned should not result in separate display of encumbered amounts.
- B. Encumbered amounts for specific purposes for which amounts have not been previously restricted, committed, or assigned, will be classified as committed or assigned, as appropriate, based on the definitions and criteria set forth in GASB Statement No. 54.

V. Hierarchy of Fund Balance Use

- A. When multiple categories of fund balance are available for expenditures, the City will spend the most restricted funds first before moving down the category with available funds in the following order:

Fund Balance and Financial Reserves Policy

1. Restricted
2. Committed
3. Assigned
4. Unassigned
